ACADEMIC PROJECTS

Rally | Senior Thesis, Wentworth Institute of Technology *January 2026 – May 2026*

- Developed a new approach to everyday movement that is approachable, flexible, and less centered around traditional gym culture.
- Conducted user research and competitive analysis to identify barriers to movement; translated findings into a habit-based mobile experience.
- Prototyped personalized movement, weekly Huddles, and self-directed goals; conducted user testing and refined the experience based on findings.

Fuel Em | Studio 7, Wentworth Institute of Technology *January 2026 – April 2026*

- Addressed the challenges young female athletes face when navigating restrictive thoughts around food and fueling
- Explored interaction patterns and developed iterative prototypes to create an approachable, athlete-centered digital experience
- Built and tested interactive prototypes, refining the interface and user flow based on usability findings.

PROFESSIONAL EXPERIENCE

User Experience Center (UXC) Bentley University| Waltham, MA *September 2026 – Present*
UX consultancy conducting user research and usability studies to inform client design decisions.
UX Design & Research Associate

- Developed research proposals and discussion guides, administered usability testing sessions, evaluated user data across client projects.
- Designed and facilitated workshops for institutional leaders on interviewing techniques and journey mapping, translating research methods into practical tools.
- Conducted contextual ride-along research and synthesized qualitative and quantitative data using Excel and SPSS to identify insights and inform client recommendations.

Print Boston | East Boston, MA *January 2025 – Present*
Client-focused print and design company serving businesses and organizations.
Client Services & Graphic Design

- Communicated directly with clients to understand needs, requests, and develop tailored design and print solutions
- Managed projects from concept through production while overseeing 1–2 team members and coordinating priorities, deadlines, and quality.
- Led daily production and customer service operations, ensuring accurate, timely delivery of client projects while responding to changing requests.
